
Deliverable D1.15 – Database

According to the approved application form, in the framework of research and dissemination is represented by the creation of a database, containing at least 3.000 scientific publications on regional development, new regionalism, cross-border and transnational cooperation, EU enlargement towards the WB, identity and intercultural dialogue in the enlargement process. All the works presented in the database are content related to the proposed subjects.

The database will allow systematization, facilitation and the transfer of information about the EU in university at local / regional, and at national or European levels.

Subject 1:

Regional Development and New Regionalism
